

ESSER III Funds:

Technology purchased will be for individual students so that they can interact with lessons provided by the teacher. This technology will be distributed to all students no matter their low-income status or disability. The technology purchased will help Allen Consolidated Schools continue to be a one-to-one school so that the use of technology is not shared between students risking the spread of COVID.

Allen Consolidated schools is going to purchase high quality instructional curriculum in the area of math and science to address the loss of learning experienced by all students K-12.

Allen Consolidated Schools is going to purchase a Ford Expedition so that when transporting students we can space them out and not have full busses or vehicles.
