Learning & Planting  
**PIONEER**  
BRAND SEEDS

### More than just good seed

Everyone who uses Pioneer brand products knows how well they yield. But, there's more to Pioneer than just consistently good yields. Things like genetic depth. Because Pioneer brand hybrid and variety lines are so extensive, you can spread your risk without having to go anywhere else. There's the product line itself — it covers everything from seed corn, soybeans, alfalfa, sorghum and wheat to silage inoculant. And if you ever have questions, Pioneer has trained field agronomists available when you need them.

Finally, there's your Pioneer salesman. He's someone you know, like and trust. And because he lives right down the road from you, everything Pioneer offers is right down the road, too.
